Position Announcement for

Student Application Developer

K-State Housing and Dining Services is currently searching for student programmers to join our Apps Team.

ResNet and Information Technology provide year-round support for more than 7,200 students and staff in the residence halls, Jardine Apartments and Housing and Dining Services. We provide basic computer and network support services to students and staff through phone, email, chat and walk-in support. We support a wide range of hardware devices such as PDAs, printers, gaming devices and computers. Working at ResNet or Info Tech can provide you with great leadership experience and resume building opportunities. We provide a positive team environment with flexible hours scheduled around your classes.

Qualifications

Applicants should have experience programming in PHP, Java or VB.Net, a desire to learn and the ability to accept a challenge. Preference is given to applicants who have worked with Linux.

Applicants must be able to work a minimum of 12 hours per week between the hours of 8 a.m. to 5 p.m. Monday through Friday. A minimum of three hours is required for each shift.

Preference is given to undergraduate students who are Computer Science or MIS majors, or those who have experience working with the technologies mentioned above.

Becoming a member of the Apps Team allows you to use your creativity and knowledge while gaining valuable experience in programming web applications and in-house programs used by department staff and residents.

Housing and Dining Services offers flexible hours within a team environment. Pay is $10 per hour (work study is not required).

How to Apply

Interested applicants may apply by completing the Student Application Developer Employment Application, and uploading a cover letter and resume. Please contact hdsweb@k-state.edu for assistance. AA/EOE
